 EXEMPTION 4 FOIA
 5 U.S.C. § 552(b)(4)

B.1 CONTRACT TYPE (MAR 2000)

This is a multiple-award, requirements type contract for non-machine translation services. It consists of a base period from 11/01/2001 to 10/31/2002 and (4) one-year options. However, this contract is not a multiple award type contract where individual task or delivery orders will be competed among the multiple (three) contractors. Furthermore, as provided in FAR §52.212-21(c) (see §I.6), no one single contractor will fill all the services specified in the Schedule at §B.4.2. However, all non-machine translation services will be ordered from the three contracts.

B.2 TRANSLATION SERVICES - The services to be furnished under the proposed contract(s) will consist of translating technical and non-technical material for the U.S. Patent and Trademark Office. While most of these translations will be from foreign languages into English, translations from English into a foreign language will occasionally be required.

B.3 PRICING SCHEDULE - The following pricing schedules are to be filled out for every CLIN by the offeror. Note that the Pricing Schedules on pages 5 through 9 are for translation into English, and that the Pricing Schedules on pages 10 through 14 are for translation from English into the foreign language. (The U.S. Patent and Trademark Office reserves the right to request prices for unusual languages not included on the usual pricing schedules).

B.3.1 QUOTATION OF PRICES - In the attached price sheets, all prices filled in for the base period as well as for all option years must be quoted in whole dollars rounded off to two (2) decimal points and complete. A percentage increase or decrease, for example, for the option years, is not acceptable. Separate, scaled prices are required for each delivery class CLIN in each year; no two delivery classes may have the same rate.

B.3.2 UNIT PRICES - Prices must include all costs for the production and delivery of translations and be complete. For example, all photocopying, shipping to and from the U.S. Patent and Trademark Officer (hereinafter USPTO), facsimile and electronic transmission costs are to be reflected in the unit prices quoted.

B.4 WORK LOAD ESTIMATES - The language mix and the flow rates fluctuate in the work load of the Translations Branch. Overall, the bulk of the work to be translated into English is Japanese, followed by German and then French and Russian. The average workload in number of words over the last three fiscal years (i.e., FY98, 99, and 2000) was approximately 19,230,765. Approximately 70% of this was Japanese, with the remainder consisting of German, French, Russian and other languages. It is anticipated that there will be a 10-15% increase per year in the above average. The USPTO reserves the right to adjust the language mix and flow rate as needed.

B.4.1 AVERAGE WORK LOAD FOR FY 98, 99 AND 2000 - During the last three fiscal years (i.e., FY 98, 99 and 2000) the Translations Branch received requests for the translation of the following languages. The number of words per language represent an average per year based on the last three fiscal years.

Chinese, Croatian, Czech, Danish, Dutch, English, Finnish, Hungarian, Italian, Japanese, Korean, Norwegian, Polish, Portuguese, Romanian, Russian, Spanish, Swedish, Turkish.

B.4.2. ESTIMATED WORK LOAD FOR FIVE CONTRACT YEARS

The following figures (in words per year rounded to the nearest hundred) show the estimated work load for the Base Period (average of FY 98, 99 and 2000) and the four (4) option years proposed for the contract. An average annual increase of 12% has been used to calculate the estimates for options years 1 through 4. These estimates are based on the actual workload set forth in B.4 above. This list does not include all languages that will need to be translated.

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT**C.1 1352.211-70 STATEMENT OF WORK/SPECIFICATIONS (MAR 2000)**

The Contractor shall furnish the necessary personnel, material, equipment, services and facilities (except as otherwise specified), to perform the following Statement of Work.

C.2 BACKGROUND

The Government has a requirement to provide translations of patent and non-patent literature from various foreign languages into English and, occasionally, from English into foreign languages. These translations are used by patent examiners in their examination of patent applications, by the Board of Patent Appeals and Interferences in its adjudication of patent appeal and interference cases, and by other staff of the PTO for various purposes, including legal support.

As the written translations frequently serve as documentation in PTO actions, clarity and accuracy are essential. The translated documents must be supplied in a timely fashion to accommodate the prosecution schedules of the users. Paper file copies must be of sufficient quality to permit long-term storage, if necessary, and electronic copies must be properly formatted to permit proper filing and availability to both PTO employees and the public.

C.3 SCOPE

The scope of this contract is to provide the Government with accurate, high-quality translations of 1) patent literature (patents, utility models, published patent applications, abstracts, etc.) and 2) non-patent literature (scientific and technical articles, legal documents, reports, letters, etc.). The material to be translated is primarily scientific and technical, can relate to any field, and is frequently difficult linguistically and in content. A Partial translation of any given document may also be requested. The PTO reserves the right to issue task orders that may vary somewhat from usual ordering procedures, e.g., some documents may be "batched" (see F.3.2.) or submitted for review. Also, there is a separate requirement for machine-translations, which is not the same as this requirement.

C.4 REQUIREMENTS

The Contractor shall provide the items specified below:

C.4.1 High-quality translations of patent and non-patent documents from any foreign language into standard American English. The text to be translated may encompass an entire document, only designated portions of a document, or portions of several documents in the same language bundled together. Items deliverable are as follows:

C.4.1.1 One (1) electronic copy of each translation (as an MSWord file or other file format agreed upon with the USPTO) e-mailed directly to the Translations Branch and/or other designated USPTO e-mail address.

Section C

C.4.1.2 If requested by the USPTO, one (1) copy of each translation on a magnetic medium (3 1/2" disk).

C.4.2 High-quality translations of patent and non-patent documents from English into any given foreign language in the following forms:

C.4.2.1 One (1) electronic copy of each translation (as an MSWord file or other file format agreed upon with the USPTO) e-mailed directly to the Translations Branch and/or other designated USPTO e-mail address.

C.4.2.2 If requested by the USPTO, one (1) copy of each translation on a magnetic medium (3 1/2" disk).

C.4.2.3 Specifications of all the above requirements(C.4)are listed in Section J.

C.5 QUALITY STANDARDS

The translations shall accurately reflect the contents of the foreign language original, with no distortions or omissions. The technical vocabulary used in the translation shall be appropriate within the parameters of usage for the given field and shall be consistent within the given document. The English of the translation shall be syntactically correct, idiomatic, and comprehensible to the user-specialist.

C.5.1 TRANSLATOR QUALIFICATIONS:

The Contractor will provide evidence that the individuals used as translators are linguistically and technically competent, either through education or experience, or a combination of the two. The Contractor is required to name key personnel for this contract, to give evidence of their qualifications, to indicate whether the translator will be an employee or subcontractor to the contractor, and to indicate how much time the translators will dedicate to this project. If the proposed translator will be an employee of the contractor, Statements of intent from the translators must also be provided, showing each translator's consent to accept employment from the Contractor. If the proposed translator will be a subcontractor, then the offeror must provide evidence or describe the nature of the contractual agreement between the offeror and the proposed subcontractor. The work of individual translators must be identified by name, initials, or numbers for the term of the contract. The PTO shall be notified of the qualifications of new translators the Contractor hires or subcontracts to perform PTO work. The Contractor shall also inform the PTO when translators who have been translating PTO documents cease working for the Contractor. (See Section H, Key Personnel.)

C.5.2 EDITING

The Contractor will exercise editorial control of the translations with regard to both technical accuracy and stylistic acceptability. Work that has clearly not been edited and/or is judged by the PTO to be deficient will be rejected and the PTO will not pay for such translations. (See Section E. Inspection.)

C.6 WORD COUNT COMPUTATION

The Translations Branch will use word processing software to determine the number of words in a document to be translated. Whenever possible, each document will be scanned at the Translations Branch and converted into both an MSWord file and a PDF file. The MSWord word count computation feature will be used to count the number of words in the document. For all languages other than Japanese, Chinese and Korean, the MSWord word count will be used as is. In the case of Japanese and Chinese, the total word count (i.e., character count) will be divided by 2, and by 2.5 in the case of Korean, in order to determine the actual estimated number of words to be translated.

Whenever the scanning of a particular document is not possible and/or the computation of the word count using word processing software, the Translations Branch shall reserve the right to use an alternate word counting method. The method used shall be the stroke counting method outlined under Paragraph 1 in Section J, Attachment 3 to determine the number of words in a document to be translated. If differences of opinion arise over the word count, the Contractor will tally the words using the word counting method described under Paragraph 2 in Section J, writing a total for each page. The word count will then be verified by the Translations Branch. If the discrepancy cannot be resolved in this manner, the Contracting Officer will decide the matter.

C.7 TELEFACSIMILE (FAX) TRANSMISSIONS

The Contractor must own and operate telefacsimile transmission equipment. The equipment must be compatible with that used by the Translations Branch (a group 3 or 4 machine that uses laser technology and is activated automatically).

C.7.1 A cover sheet will precede each document to be transmitted via FAX. It will include the date, the name of the receiver, the receiver's FAX or office phone number, the name of the sender, the sender's FAX and office phone numbers, the PTO number of the document to be translated, and the number of pages being transmitted (the cover sheet shall be considered page 1). (See Attachment 5, 1.)

C.7.2 The Contractor shall use those telephone numbers specified by the Government.

C.7.3 The Contractor shall examine carefully any documents received via FAX transmission to determine whether any pages are missing or have not been transmitted legibly. Should such a problem occur, the Contractor will notify the PTO Translations Branch immediately via FAX or telephone.

C.7.4 Restriction on FAX transmissions: Only documents sent to the Contractor via FAX may be returned to the PTO via FAX. If a given document has not been faxed to the Contractor, the Contractor may not fax back the translation simply to avoid having a late return. The PTO, however, reserves the right to request that any translation be faxed to the PTO.

C.8 DELIVERY SERVICES

The Contractor will provide a delivery means which reliably ensures that the completed translations are returned to the Translations Branch of the PTO in accordance with the delivery schedules outlined in Section F.

C.8.1 The Contractor shall normally transmit all completed translations via e-mail, to a designated USPTO e-mail address. Under unusual circumstances, when this is not possible for whatever reason, the Contractor, in agreement with the USPTO, may use any service providing same day or overnight delivery, whether that be commercial carriers, private messengers, or hand delivery by the Contractor.

C.8.2 The alternate delivery service employed by the Contractor (referred to in paragraph C.8.1 above) will be instructed to pick up deliveries from and return deliveries to the following address and only to this address; should the translations Branch move, the Contractor will be informed of the new address immediately:

Chief
Translations Branch
Scientific and Technical Information Center
U.S. Patent and Trademark Office
Crystal Plaza 3/4, Rm. 2C15
2021 South Clark Place
Arlington, VA 22202

C. 9 REDUCTION OF PARALLEL-TRANSLATION EFFORT

The Contractor shall immediately notify the COTR if a newly assigned item has already been assigned to or translated by the Contractor.

C. 10 DOCUMENT CONTROL

The Contractor will maintain a tracking system for all orders issued under this contract by the PTO. Upon inquiry from the COTR, the Contractor must be prepared to give the status in the translation process of any document sent to the Contractor for translation.

C.11 PROHIBITION AGAINST SALES

Nothing provided by the Government or produced under this contract is to be sold, offered for sale, given, exchanged, or otherwise released by the Contractor to any source other than the U.S. Patent and Trademark Office.

C.12 Performance-Based Service Contracting

It is the USPTO's goal to make greater use of performance-based service contracting (PBSC) methods after contract award. USPTO reserves the right to modify the methods of performance in any resulting contract(s) to conform to this PBSC goal where appropriate.

We strongly encourage the Offeror to propose alternative methods of complying with Attachment 1-7, some cost-sharing methodologies, or any other PBSC methods in their proposal. The alternative PBSC methods will not be evaluated, but will provide ideas for PBSC use in the contract.

SECTION D - PACKAGING AND MARKING**D.1 PACKING OF PAPER AND DISK COPIES**

When applicable, both paper and disk copies of translations shall be packed in such a manner as to ensure that the materials are shipped without damage in transit and arrive at their destination in a condition suitable for use.

D.2 ADDRESSING

When applicable, the materials of the requirements shall be marked and labeled to arrive at the Translations Branch of the U.S. Patent and Trademark Office and not at any other department or division of that Office. The following address is to be used on labels:

Chief
Translations Branch
Scientific and Technical Information Center
U.S. Patent and Trademark Office
Crystal Plaza 3/4, Rm. 2C15
2021 South Clark Place
Arlington, VA 22202

SECTION E - INSPECTION AND ACCEPTANCE**E.1 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)**

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

| NUMBER | TITLE | DATE |
|----------|---|----------|
| 52.246-4 | INSPECTION OF SERVICES - FIXED-PRICE | AUG 1996 |

E.2 INSPECTION

The COTR or his/her duly authorized representative will inspect the translations supplied under this Contract. The translations will be checked for acceptability in the following areas:

E.3 QUALITY OF CONTENT:

1. The translation should be an accurate rendering of the original.
2. The translation should be expressed in comprehensible, idiomatic American English.
3. The proper terms for the subject matter should be used.

E.4. QUALITY OF PRESENTATION:

1. The format should conform to the specifications defined in Section J.
2. No words, numbers, portions of text, or pages should be missing.
3. The text should be free of typographical errors.
4. The text and graphics should be neat and professional.

E.5. UNACCEPTABLE TRANSLATIONS

Translations with incorrectly translated words or sentences, typographical errors, missing portions, or incorrect format will be returned to the contractor, and the Government will not pay for the translation. Continued evidence that the Contractor is not performing editorial quality control will lead to default.

SECTION F - DELIVERIES OR PERFORMANCE**F.1 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)**

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

| 52.242-15 | STOP-WORK ORDER | AUG 1989 |
| 52.242-17 | GOVERNMENT DELAY OF WORK | APR 1984 |

F.2 COMPUTATION OF DELIVERY DATES

The Contractor shall complete and deliver all work in accordance with the schedule set forth in Section F.2 below, unless alternative delivery procedures (see Section L) are proposed by the Contractor and accepted by the PTO. The first working day following the Contractor's receipt of an order shall be counted as the first of the total number of working days allowed by the schedule in Section F.2 below. The required delivery date for all work shall be the final working day of the total number of working days. Saturdays, Sundays, and official Federal government holidays shall not be counted as working days.

Whenever alternative delivery procedures are used, and if an order is received by the Contractor through the designated carrier more than 24 hours after the date of dispatch, the Contractor shall immediately inform the COTR.

If it appears that the Contractor cannot complete the work by the due date, the Contractor must notify the COTR within two hours of receipt. The COTR shall have the option of withdrawing the order or granting additional time to complete the work (see also F.3.3 and F.5).

When work is being returned, the Contractor shall be held accountable for loss in transit and delay in delivery and the Payment for Late Delivery may be used by the Government.

F.3 DELIVERY SCHEDULES**F.3.1 GROUP ONE LANGUAGES**

The Group One languages include Chinese, Czech, Danish, Dutch, French, German, Italian, Japanese, Norwegian, Polish, Portuguese, Russian, Slovak, Spanish, and Swedish. The delivery schedule for a given document in any of these languages is as follows:

RUSH: One (1) day if sent electronically or via FAX, or two (2) days if sent by other means, plus one (1) day for each 4,000 foreign word batch or fraction thereof.

STANDARD: One (1) day if sent electronically or via FAX, or three (3) days if sent by other means, plus one (1) day for each 2,000 foreign word batch or fraction thereof.

ECONOMY: Two (2) days if sent electronically or via FAX, or 4 days if sent by other means, plus one (1) day for each 1,000 foreign word batch or fraction thereof.

F.3.2 GROUP TWO LANGUAGES

The Group Two languages include all other languages not listed as Group 1 languages. The delivery schedule for a given document in any one of these languages is as follows:

RUSH: One (1) day if sent electronically or via FAX, or two (2) days if sent by other means, plus one (1) day for each 2,000 foreign word batch or fraction thereof.

STANDARD: One (1) day if sent electronically or via FAX, or three (3) days if sent by other means, plus one (1) day for each 1,000 foreign word batch or fraction thereof.

ECONOMY: Two(2)days if sent electronically or via FAX, or four (4) days of sent by other means, plus one (1) day for each 500 foreign word batch or fraction thereof.

F.4 ORDERING PROCEDURES

The translation products required by the PTO will be evidenced by order documentation consisting of an e-mailed or faxed order followed by a written order signed by the COTR.

F.4.1 WORK ORDER/DELIVERY ADVICE SHEET AND THE DELIVERY ORDER

F.4.1.1. Work Order/Delivery Advice Sheet: The Work Order/Delivery Advice Sheet to each separate translation document sent to the Contractor will be e-mailed or faxed to the Contractor at the same time that the document is e-mailed to the Contractor. In the event that alternative document delivery means must be used, the work order/delivery advice sheet will be affixed to said document. On this sheet the COTR will provide the following information: company name and contract

number; Work Order and Delivery Order numbers; the number/identifier, language, and country of origin of the original document to be translated; a delivery schedule; the date sent and the date due; the number of words; the cost per word; the total cost per item; and any special instructions. The date returned will be recorded after the translated document has been received from the Contractor (see Attachment 5, 2). The Contractor is to fill in that portion of the Work Order/Delivery Advice Sheet designated "Contractor Use Only". Space will be provided for the following information: date received, date returned, number of words of original, cost per word, total cost, translator's name or number, and remarks. The word count and cost figures must be supplied by the Contractor if they differ from those of the PTO or if a change in word count has been authorized by the PTO because of missing pages.

F.4.1.2. Delivery Order: Each batch of one to twenty-five documents sent by the Contracting Officer to the Contractor is to be accompanied by a Delivery Order that lists the individual documents in the batch by PTO number, document number, language, country, number of words, cost per word, and total cost. The total cost for each Delivery Order is also listed (see Attachment 5, 3). A Delivery Order may be issued at the sole option of the Contracting Officer during the period set forth herein.

F.4.2. Task Orders: The PTO reserves the right to issue task orders which may differ somewhat from "regular" orders. For example, a number (up to 50) of short items (e.g., partial translations and abstracts) to be translated may be "batched" and considered as one document. Each batch will include documents of one and the same language. In this case only a single Work Order/Delivery Advice Sheet will be issued for the entire batch; each individual document in the batch will not be listed separately on the Work Order or the Delivery Order.

F.4.3 DELAY NOTIFICATION: If, upon receipt of an Order, the Contractor has any reason to believe that he/she may not be able to furnish the products of the type required within the delivery time specified in the Work Order, he/she shall immediately notify the COTR of his/her reasons and propose an alternate delivery date. The Contractor is obligated to continue performance according to the contractual requirement while the proposal for a revised delivery date is being considered. The Contractor will be informed by telephone, e-mail or FAX within 24 hours of the COTR's decision. The COTR may grant additional time or may withdraw the order and have the Contractor return the document to the Translations Branch.

Note: If additional time is granted, payment will be made according to the actual delivery category. See F.6 Payment for Late Delivery.

F.5 DELIVERY OF DISK COPIES

If requested by the USPTO, disk copies of translations are to be delivered at the Translations Branch of the U.S. Patent and Trademark Office, within 3 working days after the due date of the order. The delivery order numbers for the documents returned are to be noted on the disks.

F.6 PAYMENT FOR LATE DELIVERY

a. In cases in which the Contractor does not comply with "RUSH", "STANDARD", or "ECONOMY" delivery service in accordance with the methods and Delivery schedules in Section F.3, the Government may choose to reject the late translations and not pay for them, and in the case of repeated noncompliance with the delivery schedule, may hold the contractor in default of the contract.

b. If the Government chooses to accept a late translation, the Government will, in reimbursing the Contractor, reduce the rate of payment for the language involved to reflect the rate for the actual delivery time as computed in accordance with the delivery schedules in Section F.3.

c. In the event that the Contractor has failed to return a translation within the time specified under "ECONOMY" and the Government nevertheless chooses to accept the late delivery, the Government will, in reimbursing the Contractor, reduce payment by ten percent (10%) below the rate for "ECONOMY" when the translation is up to 5 working days late and by fifteen percent (15%) when it is more than 5 working days late.

SECTION G - CONTRACT ADMINISTRATION DATA**G.1 1352.201-70 CONTRACTING OFFICER'S AUTHORITY (MAR 2000)**

The Contracting Officer is the only person authorized to make or approve any changes in any of the requirements of this contract and notwithstanding any provisions contained elsewhere in this contract, the said authority remains solely in the Contracting Officer. In the event the Contractor makes any changes at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract terms and conditions, including price.

G.2 1352.201-71 CONTRACTING OFFICER'S TECHNICAL REPRESENTATIVE (COTR) (MAR 2000)

a. John Graham is hereby designated as the Contracting Officer's Technical Representative (COTR). The COTR may be changed at any time by the Government without prior notice to the Contractor by a unilateral modification to the Contract.

The COTR is located at:

Scientific and Technical Information Center
Translation Branch
Crystal Plaza 3 / 4
2021 South Clark Place
Arlington, VA 22202

Phone Number: (703) 308-3293

b. The responsibilities and limitations of the COTR are as follows:

- (1) The COTR is responsible for the technical aspects of the project and serves as technical liaison with the Contractor. The COTR is also responsible for the final inspection and acceptance of all reports, and such other responsibilities as may be specified in the contract.
- (2) The COTR is not authorized to make any commitments or otherwise obligate the Government or authorize any changes which affect the Contract price, terms or conditions. Any Contractor request for changes shall be referred to the Contracting Officer directly or through the COTR. No such changes shall be made without the expressed prior authorization of the Contracting Officer. The COTR may designate assistant COTR(s) to act for the COTR by naming such assistant(s) in writing and transmitting a copy of such designation through the Contracting Officer to the Contractor.

G.3 INVOICES

G.3.1 INVOICE FORM: The invoice must contain the following:

A cover sheet containing the following information on the top half of the sheet (the bottom half is to be left blank for PTO use):

Name and address of the Contractor,
Contract number,
Invoice date,
Invoice number,
Total cost of all Work Orders invoiced.

Subsequent sheets shall list the following:

Work Order (PTO) number of each item invoiced,
Cost of each item.

All pages of the invoice must be on 8 1/2 x 11" paper. Each page of the invoice shall be numbered in the following manner: 1 of 1, 1 of 2, etc.

G.3.2 INVOICING PROCEDURE: The Contractor shall submit an invoice to PTO not less often than once a month.

Orders placed by the Translations Branch in different fiscal years shall be billed on separate invoices.

Should an invoice contain errors (typographical or other), it shall be returned to the Contractor to be corrected and resubmitted. The Contractor is advised that this may cause a delay in payment, since the receipt date in the PTO shall be that of the corrected invoice.

The original invoice and one copy shall be submitted to the following address:

Box 17
Patent and Trademark Office
Office of Finance RM 802B
Washington, D.C. 20231

An informational copy of the invoice shall be submitted as part of the normal work delivery to:

Chief,
Translations Branch
Scientific and Technical Information Center
U.S. Patent and Trademark Office
Crystal Plaza 3-4, Rm. 2C15
2021 South Clark Place
Arlington, VA 22202

G.3.3 INVOICE PROCESSING: The items charged in the invoice will be verified and the charges for any late items accepted by the PTO will be adjusted according to the guidelines provided in Section F. When processing is complete, the Contractor will receive an Invoice Verification Report showing the original cost estimated per item, the Contractor's invoice cost, and the final cost (adjusted if necessary). After receipt and acceptance by the COTR, the Government will make payment according to the Prompt Payment Act for each invoice submitted.

SECTION H - SPECIAL CONTRACT REQUIREMENTS**H.1 1352.208-70 PRINTING (MAR 2000)**

Unless otherwise specified in this contract, the Contractor shall not engage in, or subcontract for, any printing (as that term is defined in Title I of the Government Printing and Binding Regulations in effect on the effective date of this contract) in connection with performing under this contract. Provided, however, that performing a requirement under this contract involving the duplicating of less than 5,000 units of only one page, or less than 25,000 units in the aggregate of multiple pages, such pages not exceeding a maximum image size of 10 and 3 / 4 inches by 14 and 1/4 inches, will not be deemed printing.

H.2 1352.209-71 ORGANIZATIONAL CONFLICT OF INTEREST (MAR 2000)

(a) The Contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which would give rise to an organizational conflict of interest, as defined in FAR Subpart 9.5, or that the Contractor has disclosed all such relevant information.

(b) The Contractor agrees that if an actual or potential organizational conflict of interest is discovered after award, the Contractor make will a full disclosure in writing to the Contracting Officer. This disclosure shall include a description of actions which the Contractor has taken or proposes to take, after consultation with the Contracting Officer, to avoid, mitigate, or neutralize the actual or potential conflict.

(c) Remedies - The Contracting Officer may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to avoid an organizational conflict of interest. If the Contractor was aware of a potential organizational conflict of interest prior to award or discovered an actual or potential conflict after award and did not disclose or misrepresented relevant information to the Contracting Officer, the Government may terminate the contract for default, debar the Contractor for Government contracting, or pursue such other remedies as may be permitted by law or this contract.

(d) The Contractor further agrees to insert provisions which shall conform substantially to the language of this clause, including the paragraph (d), in any subcontract of consultant agreement hereunder.

H.3 1352.209-72 RESTRICTIONS AGAINST DISCLOSURE (MAR 2000)

a. The Contractor agrees, in the performance of this contract, to keep the information furnished by the Government and designated by the Contracting Officer or Contracting Officer's Technical Representative in the strictest confidence. The Contractor agrees not to participate in Bounty Quest activities. The Contractor also agrees not to publish or otherwise divulge such information in whole or in part, in any manner or form, nor to authorize or permit others to do so, taking such reasonable measures as are necessary to restrict access to such information while in the Contractor's possession, to those employees needing such information to perform the work provided herein, i.e., on a "need to know" basis. The Contractor agrees to immediately notify the Contracting Officer in writing in the event that the Contractor determines or has reason to suspect a breach of this requirement.

b. The Contractor agrees that it will not disclose any information described in subsection (a) to any person or individual unless prior written approval is obtained from the Contracting Officer. The Contractor agrees to insert the substance of this clause in any consultant agreement or subcontract hereunder.

H.4 1352.209-73 COMPLIANCE WITH THE LAWS (MAR 2000)

The Contractor shall comply with all applicable laws and rules and regulations having the force of law which deal with or relate to performance hereunder or the employment by the Contractor of the employees.

H.5 1352.233-70 HARMLESS FROM LIABILITY (MAR 2000)

The Contractor shall hold and save the Government, its officers, agents, and employees harmless from liability of any nature or kind, including costs and expenses to which they may be subject, for or on account of any or all suits or damages of any character whatsoever resulting from injuries or damages sustained by any person or persons or property by virtue of performance of this contract, arising or resulting in whole or in part from the fault, negligence, wrongful act or wrongful omission of the contractor, or any subcontractor, their employees, and agents.

H.6 1352.237-73 KEY PERSONNEL (MAR 2000)

a. The Contractor shall assign to this contract the following Key Personnel:

Translators (as indicated in the contractor's proposal)

b. The Contractor shall obtain the consent of the Contracting Officer prior to making Key Personnel substitutions. Replacements for Key Personnel must possess qualifications equal to or exceeding the qualifications of the personnel being replaced specified.

c. Requests for changes shall be submitted to the Contracting Officer at least 15 working days prior to making any permanent substitutions. The request should contain a detailed explanation of the circumstances necessitating the proposed substitutions, complete resumes for the proposed substitutes, and any additional information requested by the Contracting Officer. The Contracting Officer will notify the Contractor within 10 working days after receipt of all required information of the decision on substitutions. The contract will be modified to reflect any approved changes.

H.7 1352.252-70 REGULATORY NOTICE (MAR 2000)

Contractors are advised that certain provisions and clauses identified with a Commerce Acquisition Regulation (CAR) notation for identification purposes, have not yet been incorporated into the CAR. However, all of these items are binding for this acquisition and will eventually be contained in the CAR at Part 13 of Title 48 of the Code of Federal Regulations.

H.8 FEDERAL HOLIDAYS AND UNSCHEDULED GOVERNMENT CLOSINGS

- (a) The following is a list of Federal holidays. The Contractor shall normally not be required to work on holidays, nor on holidays observed in lieu thereof, except as otherwise specified.

New Year's Day, January 1

Martin Luther King's Birthday, the third Monday in January

President's Day, the third Monday in February

Memorial Day, the last Monday in May

Independence Day, July 4

Labor Day, the first Monday in September

Columbus Day, the second Monday in October

Veteran's Day, November 11

Thanksgiving Day, the third Thursday in November

Christmas Day, December 25

Inauguration Day (Presidential inaugurations normally occur once every four years)

- (b) The Contractor shall comply with the aforementioned Government holidays and any other day designated by Federal Statute, Executive Order, or Presidential Proclamation, therefore, the Government offices are closed to the Contractor's staff on the day(s) these holidays are observed. In addition, work shall not be required of the Contractor when Federal employees are released from work early due to inclement weather conditions or when Federal offices are closed due to inclement weather condition. The COTR will notify the contractor when early release of Federal employees has been authorized.

PART II - CONTRACT CLAUSES**SECTION I - CONTRACT CLAUSES****I.1 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)**

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

I.2 52.203-8 CANCELLATION, RESCISSION, AND RECOVERY OF FUNDS FOR ILLEGAL OR IMPROPER ACTIVITY (JAN 1997)

- (a) If the Government receives information that a contractor or a person has engaged in conduct constituting a violation of subsection (a), (b), (c), or (d) of Section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423) (the Act), as amended by section 4304 of the 1996 National Defense Authorization Act for Fiscal Year 1996 (Pub. L. 104-106), the

I.2 (Continued)

Government may--

- (1) Cancel the solicitation, if the contract has not yet been awarded or issued; or
- (2) Rescind the contract with respect to which--
 - (i) The Contractor or someone acting for the Contractor has been convicted for an offense where the conduct constitutes a violation of subsection 27 (a) or (b) of the Act for the purpose of either--
 - (A) Exchanging the information covered by such subsections for anything of value; or
 - (B) Obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; or
 - (ii) The head of the contracting activity has determined, based upon a preponderance of the evidence, that the Contractor or someone acting for the Contractor has engaged in conduct constituting an offense punishable under subsections 27(e)(1) of the Act.
- (b) If the Government rescinds the contract under paragraph (a) of this clause, the Government is entitled to recover, in addition to any penalty prescribed by law, the amount expended under the contract.
- (c) The rights and remedies of the Government specified herein are not exclusive, and are in addition to any other rights and remedies provided by law, regulation, or under this contract.

I.3 52.203-12 LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (DEVIATION NOV 1990) (JUN 1997)

(a) Definitions.

"Agency," as used in this clause, means executive agency as defined in 2.101.

"Covered Federal action," as used in this clause, means any of the following Federal actions:

- (1) The awarding of any Federal contract;
- (2) The making of any Federal grant;
- (3) The making of any Federal loan;

I.3 (Continued)

- (4) The entering into of any cooperative agreement; and,
- (5) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

"Indian tribe" and "tribal organization," as used in this clause, have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450B) and include Alaskan Natives.

"Influencing or attempting to influence," as used in this clause, means making, with the intent to influence, any communication to or appearance before an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

"Local government," as used in this clause, means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

"Officer or employee of an agency," as used in this clause, includes the following individuals who are employed by an agency:

- (1) An individual who is appointed to a position in the Government under title 5, United States Code, including a position under a temporary appointment.
- (2) A member of the uniformed services as defined in subsection 101(3), title 37, United States Code.
- (3) A special Government employee, as defined in section 202, title 18, United States Code.
- (4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, United States Code, appendix 2.

"Person," as used in this clause, means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to

I.3 (Continued)

expenditures specifically permitted by other Federal law.

"Reasonable compensation," as used this clause, means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

"Reasonable payment," as used this clause, means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

"Recipient," as used in this clause, includes the Contractor and all subcontractors. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

"Regularly employed," as used in this clause, means, with respect to an officer or employee of a person requesting or receiving a Federal contract, an officer or employee who is employed by such person for at least 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract. An officer or employee who is employed by such person for less than 130 working days within 1 year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

"State," as used in this clause, means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, and multi-State, regional, or interstate entity having governmental duties and powers.

(b) Prohibitions.

- (1) Section 1352 of title 31, United States Code, among other things, prohibits a recipient of a Federal contract, grant, loan, or cooperative agreement from using appropriated funds to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract; the making

I.3 (Continued)

of any Federal grant; the making of any Federal loan; the entering into of any cooperative agreement; or the modification of any Federal contract, grant, loan, or cooperative agreement.

- (2) The Act also requires Contractors to furnish a disclosure if any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement.
- (3) The prohibitions of the Act do not apply under the following conditions:
 - (i) Agency and legislative liaison by own employees.
 - (A) The prohibition on the use of appropriated funds, in subparagraph (b)(1) of this clause, does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.
 - (B) For purposes of subdivision (b)(3)(i)(A) of this clause, providing any information specifically requested by an agency or Congress is permitted at any time.
 - (C) The following agency and legislative liaison activities are permitted at any time where they are not related to a specific solicitation for any covered Federal action:
 - (1) Discussing with an agency the qualities and characteristics (including individual demonstrations) of the person's products or services, conditions or terms of sale, and service capabilities.
 - (2) Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.
 - (D) The following agency and legislative liaison

I.3 (Continued)

activities are permitted where they are prior to formal solicitation of any covered Federal action--

- (1) Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;
- (2) Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and
- (3) Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Pub. L. 95-507, and subsequent amendments.

(E) Only those services expressly authorized by subdivision (b)(3)(i)(A) of this clause are permitted under this clause.

(ii) Professional and technical services.

(A) The prohibition on the use of appropriated funds, in subparagraph (b)(1) of this clause, does not apply in the case of--

- (1) A payment of reasonable compensation made to an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action, if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action.
- (2) Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action or any extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation,

I.3 (Continued)

submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

- (B) For purposes of subdivision (b) (3) (ii) (A) of this clause, "professional and technical services" shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client's proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.
- (C) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation and

I.3 (Continued)

any other requirements in the actual award documents.

(D) Only those services expressly authorized by subdivisions (b)(3)(ii)(A)(1) and (2) of this clause are permitted under this clause.

(E) The reporting requirements of FAR 3.803(a) shall not apply with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

(iii) Selling activities by independent sales representatives.

The prohibition on the use of appropriated funds, in subparagraph (b)(1) of this clause, does not apply to the following sales activities before an agency by independent sales representatives, provided such activities are prior to formal solicitation by an agency and are specifically limited to the merits of the matter;

(A) Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities; and

(B) Technical discussions and other activities regarding the application or adoption of the person's products or services for an agency's use.

(c) Disclosure.

(1) The Contractor who requests or receives from an agency a Federal contract shall file with that agency a disclosure form, OMB standard form LLL, Disclosure of Lobbying Activities, if such person has made or has agreed to make any payment using nonappropriated funds (to include profits from any covered Federal action), which would be prohibited under subparagraph (b)(1) of this clause, if paid for with appropriated funds.

(2) The Contractor shall file a disclosure form at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under subparagraph (c)(1) of this clause. An event that materially affects the accuracy of the information

I.3 (Continued)

reported includes--

- (i) A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or
 - (ii) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or
 - (iii) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.
- (3) The Contractor shall require the submittal of a certification, and if required, a disclosure form by any person who requests or received any subcontract exceeding \$100,000 under the Federal contract.
- (4) All subcontractor disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the prime Contractor. The prime Contractor shall submit all disclosures to the Contracting Officer at the end of the calendar quarter in which the disclosure form is submitted by the subcontractor. Each subcontractor certification shall be retained in the subcontract file of the awarding Contractor.
- (d) Agreement. The Contractor agrees not to make any payment prohibited by this clause.
- (e) Penalties.
- (1) Any person who makes an expenditure prohibited under paragraph (a) of this clause or who fails to file or amend the disclosure form to be filed or amended by paragraph (b) of this clause shall be subject to civil penalties as provided for by 31 U.S.C. 1352. An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.
 - (2) Contractors may rely without liability on the representation made by their subcontractors in the certification and disclosure form.

I.3 (Continued)

- (f) Cost allowability. Nothing in this clause makes allowable or reasonable any costs which would otherwise be unallowable or unreasonable. Conversely, costs made specifically unallowable by the requirements in this clause will not be made allowable under any other provision.

I.4 52.216-18 ORDERING (OCT 1995)

- (a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from The effective date of the contract through August 31, 2006.
- (b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.
- (c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

I.5 52.216-19 ORDER LIMITATIONS (OCT 1995)

- (a) Minimum order. When the Government requires supplies or services covered by this contract in an amount equal to 10% of the estimated total word count, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.
- (b) Maximum order. The Contractor is not obligated to honor--
 - (1) Any order for a single item in excess of 10% of the estimated total word count;
 - (2) Any order for a combination of items in excess of 120% of the estimated total word counted; or
 - (3) A series of orders from the same ordering office within days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

I.5 (Continued)

- (c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.
- (d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

I.6 52.216-21 REQUIREMENTS (OCT 1995)

- (a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.
- (b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.
- (c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.
- (d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.
- (e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be

I.6 (Continued)

specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

- (f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after October 31, 2006.

I.7 52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 30 days of contract expiration.

I.8 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

- (a) The Government may extend the term of this contract by written notice to the Contractor provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 30 days before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

I.9 52.232-34 PAYMENT BY ELECTRONIC FUNDS TRANSFER—OTHER THAN CENTRAL CONTRACTOR REGISTRATION (MAY 1999)

(a) Method of payment.

- (1) All payments by the Government under this contract shall be made by electronic funds transfer (EFT) except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.
- (2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--
 - (i) Accept payment by check or some other mutually agreeable method of payment; or
 - (ii) Request the Government to extend payment due dates until such time as the Government makes payment by EFT (but see paragraph (d) of this clause).

(b) Mandatory submission of Contractor's EFT information.

- (1) The Contractor is required to provide the Government with the information required to make payment by EFT (see paragraph (j) of this clause). The Contractor shall provide this information directly to the office designated in this contract to receive that information (hereafter: "designated office") by . If not otherwise specified in this contract, the payment office is the designated office for receipt of the Contractor's EFT information. If more than one designated office is named for the contract, the Contractor shall provide a separate notice to each office. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the designated office(s).
- (2) If the Contractor provides EFT information applicable to multiple contracts, the Contractor shall specifically state the applicability of this EFT information in terms acceptable to the designated office. However, EFT information supplied to a designated office shall be applicable only to contracts that identify that designated office as the office to receive EFT information for that contract.

(c) Mechanisms for EFT payment. The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

I.9 (Continued)

- (d) Suspension of payment. (1) The Government is not required to make any payment under this contract until after receipt, by the designated office, of the correct EFT payment information from the Contractor. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.
- (2) If the EFT information changes after submission of correct EFT information, the Government shall begin using the changed EFT information no later than 30 days after its receipt by the designated office to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the updated EFT information is implemented by the payment office. If such suspension would result in a late payment under the prompt payment terms of this contract, the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.
- (e) Liability for uncompleted or erroneous transfers. (1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--
- (i) Making a correct payment;
 - (ii) Paying any prompt payment penalty due; and
 - (iii) Recovering any erroneously directed funds.
- (2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--
- (i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or
 - (ii) If the funds remain under the control of the payment office, the Government shall not make payment and the provisions of paragraph (d) shall apply.

I.9 (Continued)

- (f) EFT and prompt payment. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.
- (g) EFT and assignment of claims. If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall provide the EFT information required by paragraph (j) of this clause to the designated office, and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.
- (h) Liability for change of EFT information by financial agent. The Government is not liable for errors resulting from changes to EFT information provided by the Contractor's financial agent.
- (i) Payment information. The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address in the contract.
- (j) EFT information. The Contractor shall provide the following information to the designated office. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause). The Contractor shall designate a single financial agent per contract capable of receiving and processing the EFT information using the EFT methods described in paragraph (c) of this clause.

I.9 (Continued)

- (1) The contract number (or other procurement identification number).
- (2) The Contractor's name and remittance address, as stated in the contract(s).
- (3) The signature (manual or electronic, as appropriate), title, and telephone number of the Contractor official authorized to provide this information.
- (4) The name, address, and 9-digit Routing Transit Number of the Contractor's financial agent.
- (5) The Contractor's account number and the type of account (checking, saving, or lockbox).
- (6) If applicable, the Fedwire Transfer System telegraphic abbreviation of the Contractor's financial agent.
- (7) If applicable, the Contractor shall also provide the name, address, telegraphic abbreviation, and 9-digit Routing Transit Number of the correspondent financial institution receiving the wire transfer payment if the Contractor's financial agent is not directly on-line to the Fedwire Transfer System; and, therefore, not the receiver of the wire transfer payment.

I.10 52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (APR 1984)

- (a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.
- (b) The use in this solicitation or contract of any Commerce Acquisition Regulation clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

PART III - LIST OF DOCUMENTS, EXHIBITS AND OTHER ATTACHMENTS

SECTION J - LIST OF ATTACHMENTS

ATTACHMENT 1 - PHYSICAL FORMAT FOR TRANSLATION DOCUMENTS

ATTACHMENT 2 - TRANSLATION COPIES ON MAGNETIC MEDIA

ATTACHMENT 3 - ALTERNATE METHODS FOR FOREIGN WORD COMPUTATION

ATTACHMENT 4 - STANDARD CODES AND FORMATS

ATTACHMENT 5 - EXHIBITS AND DOCUMENTS

ATTACHMENT 6 - SAMPLE PATENT DOCUMENT FIRST PAGES

- Germany (DE): A, C, U
- European Patent Office (EP): A, B
- France (FR): A
- Japan (JP): A, B, U, Y
- World Intellectual Property Organization (WO): A

ATTACHMENT 7 - SAMPLE OF DOCUMENTS TO BE TRANSLATED

- Japanese (2 each)
- German (2 each)
- French (2 each)

ATTACHMENT 1 - PHYSICAL FORMAT FOR TRANSLATION DOCUMENTS

The standard formats for translation documents set out below may be subject to modification or adjustment at the discretion of the COTR. The PTO reserves the right to modify the format of any or all of the elements cited, as required for special circumstances.

The PTO also reserves the right to require submission of electronic translation copies formatted using such tools as WordPerfect Styles that are readily transferable to Standard Generalized Markup Language and data storage products.

1. SPECIFICATIONS

a. Paper (if applicable). Paper quality for original copy shall meet or surpass regular plain paper used in xerographic equipment (No. 4 copy paper, wt. 20 lb.). A bond type paper is preferred (wt. 20 lb.), color: white.

b. Page Dimensions. Outside dimension: 8 1/2 x 11 inches. Typing area: 7 inches in width and 9 inches in length, equally spaced from the edges of the sheet.

c. Typography. Type size: 10 cpi. Underlining is permitted for italicized words. Greek letters and mathematical symbols will be inserted by mechanical means.

d. Spacing. Jobs containing up to 50 pages of foreign text will be double spaced and jobs containing 51 pages or more of foreign text will be single-spaced with double spaces between paragraphs.

e. Indentation. Indent each paragraph five (5) spaces; indent subparagraphs five (5) more spaces, etc.

f. Transliteration of non-Roman languages. The schemes most recently defined by the Government's Board of Geographic Names will be used for all transliteration.

2. SEQUENCE OF ELEMENTS

a. The following is the sequence of translation elements for patent literature:

Cover page (unnumbered)
Title page (numbered page 1)
Main body of text
Drawings (if any)

b. The following is the sequence of translation elements, when present, for non-patent literature:

Cover page (unnumbered)
Title page (numbered page 1)
Preface/Forward
Table of Contents
List of symbols/notations/abbreviations
Main body of text
Cited Literature (References)
Appendix
Index (English alphabetized)

Attachment 1 (Continued)

c. The PTO reserves the right to define special element sequences for document types not covered in a. and b.

d. In a., b., and c. above, all pages will be numbered, except the cover page, using Arabic numerals. The page numbers are to be centered at the bottom of the page not lower than 3/4 inch from the bottom edge.

3. INDIVIDUAL ELEMENTS

Under normal circumstances, the elements listed above will have the following format:

3.1. Cover Page. A cover page will be prepared for each technical translation. It will contain the following elements:

- PTO Number: in the upper left corner of the image area about 3/4 inch from the top of the page, containing the letter designation "PTO" and completed with the Work Order number assigned in the PTO, e.g., PTO 90-1357.

- Document identification:

o Patent Literature (Attachment 5,4). The country, document publication date, and kind of patent document is to be placed in the upper right corner of the page about 3/4 inch from the top, with the following format: CY=AA DATE=YYYYMMDD KIND=AN. The document number is to be placed immediately below this line: PN=XXXXXXXX. In the document identification data, no commas, hyphens, or spaces are used, and Japanese document numbers have 2 digits for the year and six digits for the number (e.g., 6-12543 is 06012543).

NOTE: Whenever possible, the document kind is to be designated with the one- or two-digit code assigned to the document at the top of the first page of the patent publication, under the INID code (12), usually with A, B, C, or U as the first character. For standard codes, see Attachment 4, 2. Older documents do not have these codes and should be designated with the type as indicated on the document (e.g., application, patent). In such cases the following German and Japanese words designating kind should not be translated:

Offenlegungsschrift: Abbreviate to OLS
 Auslegeschrift: Abbreviate to ALS
 Gebrauchsmuster: Abbreviate to GEB
 Kokai: Use the Japanese word
 Kokoku: Use the Japanese word

Attachment 1 (Continued)

The COTR may designate other specific terms or abbreviations to be used.

o Non-Patent Literature (Attachment 5, 5). The foreign language followed by the word "article" or other appropriate description of the document is to be placed in the upper right corner of the page about one inch from the top. The author's last name or other identifier is to be placed on the line immediately below this line.

- Title: The title is to be centered about 4 inches from the top and is all in capitals. The original foreign language title (transliterated when necessary) is to be placed immediately below the English title and enclosed in brackets.

- Authors or inventors: Centered two lines below the title; if there is more than one inventor or author, give only the name of the first author or inventor followed by the Latin "et al." All professional and other titles such as Dr., Prof., Eng., Mr., Mrs., etc., are to be omitted. (If the inventor is not named, the name of the applicant shall be used.) If an author's name is missing, use some other appropriate identifier such as the journal title or significant words in the article title. The COTR may designate a specific identifier.

- Copyright Statement: This statement will be supplied on all translations of articles. The COTR, in the order, may require its use on other translations as well. The statement will be placed in capital letters two inches below the author's name (see Attachment 5, 5). It is to read: "NOTICE: COPYRIGHT RESTRICTIONS MAY APPLY".

- Attribution: The words UNITED STATES PATENT AND TRADEMARK OFFICE will appear in capital letters about 8 inches from the top.

- Location: The location Washington, D.C. and the date (month and year the translation was completed) will appear directly under the attribution.

- Translator name: The name of the translator and/or contractor preceded by "Translated by: " will appear toward the bottom of the page.

3.2. Title Page. The title page follows the cover page and is numbered 1.

- Patent Literature. The title page of patents and published patent applications shall be translated in full, except as noted below. The bibliographic items should be included as defined and illustrated in Attachment 4, 3 (Standard Codes and Formats). The following items, when they appear, need not be translated, and they will not be included in the word count:

- o Titles, such as Prof., Dr., Eng., Mr., Mrs.,
- o Addresses,
- o Names of attorneys or representatives,
- o Laws under which the patent has been granted,
- o Printer's notations,
- o Abstracts, unless specific instructions to the contrary are given.

Attachment 1 (Continued)

- Non-Patent Literature. When available, the following information will be supplied for non-patent literature in the sequence shown:

- o Translated title (entirely in capital letters)
- o Foreign language title
- o Author(s)
- o Author affiliation
- o Source:
 - Name of book, journal, etc.
 - Publisher
 - Vol. No.
 - Issue No.
 - Year
 - Pages

3.3. Preface/Forward. When present, the preface or forward is presented after the title page.

3.4. Table of Contents. When present, citations in the Table of Contents should reflect the same style and wording as used in the pages cited. Titles of individual contributions will precede the author names.

3.5. List of Symbols/Notations/Abbreviations. When available, the list of symbols, notations, or abbreviations should appear after the Table of Contents. Each abbreviation used in the text (except for internationally recognized abbreviations) should be identified and completely expanded. They should be capitalized and run together without regard for the number of letters involved (with the exception of U.S. and U.N., the abbreviations for the United States and the United Nations, respectively). Symbols and notations should be clearly defined.

3.6. Main Body of Text

o Source Pagination. The foreign page number is placed in the right margin of the first line of translation at the end of the first line of translation of the source page text. It is set off thus: /18.

o Graphics on Electronic or Paper Copies. Graphics include half-tones, line drawings, schematics, figures, tables, illustrations, equations, and charts. The graphics shall be run-in throughout the text and are placed as near as possible to the point where they are referenced.

Whenever possible, reproductions of graphics should be made in a 1:1 ratio. In some instances, it may be necessary to enlarge the graphics to bring out detail. In cases of unusual material such as oversized pages, e.g., in foldouts or gatefolds, the COTR will provide the Contractor with guidance as to procedures that will be acceptable.

Attachment 1 (Continued)

o Titles. Titles of tables are centered in all capital letters above the tables. The word "TABLE" and its Arabic numeral will precede the title. If the table extends beyond one page, the page number and column headings are repeated on the top of each succeeding page of the table.

o Equations. Equations are centered and placed in correct order. Foreign language abbreviations occurring in equations will be replaced by suitable English abbreviations. Equation numbers are flush right enclosed with parentheses.

o Footnotes. Footnotes will be designated in the text by superscript Arabic numerals. References are not footnoted but included at the back. A full line will be drawn to separate footnotes from the text. Footnotes will be numbered consecutively beginning with "1" for each section containing footnotes.

o Commas. Commas used in the foreign text to indicate decimal points will be changed to periods, to follow American usage.

o Reference Numbers. Reference numbers in the text will be bracketed.

o Errata. If an errata sheet is included in the foreign language document, the corrections are to be incorporated into the text of the translation.

3.7. Cited Literature (References). The words "CITED LITERATURE" in capital letters will appear centered on a new page following the main body of the text. References are consecutively numbered and single spaced. Within a reference, the first line is not indented, but the second and subsequent lines are indented three spaces from the left margin. Standards used by the American Chemical Society will be used to enter journal titles (see Chemical Abstracts, List of Periodicals, most recent edition, published by the American Chemical Society, Washington, D.C., and yearly supplements to this list). Journal titles are not to be translated. Book titles (including reports, theses, proceedings, collections, etc.) are given in the foreign or transliterated form. When references are in the language of the document being translated, they will be translated as well. Within the text, references are denoted in brackets. If references are unnumbered in the source document, the authors' names will be listed in English alphabetical order.

3.8. Appendix. An appendix, if present, starts on a new page with the word "APPENDIX" centered at the top. It is consecutively numbered with the preceding pages of the main body of the text.

3.9. Index. An index, when present, will start on a new page with the appropriate title, that is, "SUBJECT INDEX," "NAMES," or "INDEX" centered at the top. Transliterated entries will be put into English alphabetical order.

ATTACHMENT 2 - TRANSLATION COPIES ON MAGNETIC MEDIA1. GENERAL

If requested, one copy of each finished translation will be supplied to the Translations Branch on standard 3 1/2-inch disks usable on IBM-compatible PC's with a Windows operating system. The text files are to be submitted as an MSWord file or other file format agreed upon with the USPTO..

2. INTERNAL FORM AND FORMATTING

The texts sent electronically, and/or stored on disk shall match exactly the paper copies supplied to the PTO, with the same format as described in Attachment 1 above. Captions and labels for drawings and/or illustrations that are reproduced on magnetic media are to be translated and included at the point where they occur in the original text.

2.1. EXTERNAL FORM. The files will be prepared as an MSWord file or other file format agreed upon with the USPTO.

2.2. FILE NAMES. The file naming convention for patents is as follows:

Foreign patent number + period + country code (+ S if it is a partial translation)

Foreign patent number: The number should include no commas or punctuation of any kind. In the case of Japanese, Korean, and World Patent Organization patents, where the first two digits of the number are the publication year, usually followed by a hyphen, the hyphen is to be omitted. For Japanese, leading zeros are to be placed before one-digit publication years and the actual document number is to be zero-filled to six digits, for example, 6-123 becomes 06000123.JP. Likewise, the actual document number for WIPO documents is zero filled to five digits.

The standard WIPO country codes listed in Attachment 4, 1 are to be used.

S Designator: "S" is added to the file extension when the document was only partially translated.

Examples:

West German patent no. 2,236,782 = 2236782.DE

Japanese patent no. 67-245453 = 67245453.JA

Partial WIPO patent no. 87-027 = 8700027.WOS

Attachment 2 (Continued)

The file naming convention for articles is as follows:

First eight letters of author's name + period +
first three letters of language

Example:

Article in French by Marchand = MARCHAND.FRE

The file naming convention for letters is as follows:

LE + Fiscal year + PTO Number + period + first
three letters of the language

Example:

Letter in German from FY89 with PTO number 2345
= LE892345.GER

Any other naming conventions will be arranged by the PTO with the contractor, as needed.

3. DISKS

If requested by the USPTO disks will preferably hold multiple files from a single shipment or delivery order. Each disk shall have an external label listing the names of the files contained on that disk and the Delivery Order to which they belong.

The PTO reserves the right to request that the Contractor supply copies in magnetic form immediately upon completion of a specified document or documents, or to request additional electronic copies at any time during the life of the contract.

ATTACHMENT 3 - ALTERNATE METHODS FOR FOREIGN WORD COMPUTATION

1. STROKE COUNTING METHOD

Step 1. Select a full page of text in the document to be translated. Select three (3) or more lines of text on that page and count the number of letters, numerals, punctuation marks, and spaces between words.

Step 2. Divide the number of strokes obtained by the number of lines counted. This provides the average number of strokes per line.

Step 3. Count the number of lines of text on the page, making allowances for partial lines, paragraph indentation, etc. Multiply the number of strokes per line by the number of lines counted to obtain the number of strokes on the page. Do this for each page in the document to obtain the total number of strokes in the document.

Step 4. Using the space count factor for the appropriate language in the Foreign Language Space Count Factor Chart (below), divide the result obtained from Steps 1-3 above by that factor to obtain the number of foreign words in the document.

FOREIGN LANGUAGE SPACE COUNT FACTOR CHART

| Lang. | Factor | Lang. | Factor | Lang. | Factor | Lang. | Factor |
|-----------|--------|-----------|--------|------------|--------|-----------|--------|
| Arabic | 7 | English | 6 | Japanese | 2 | Serbian | 6.5 |
| Bulgarian | 7 | Finnish | 8 | Korean | 2.5 | Slovak | 6.5 |
| Chinese | 2 | French | 6 | Norwegian | 6 | Spanish | 6 |
| Croatian | 7 | German | 7.5 | Polish | 7.5 | Swedish | 7 |
| Czech | 7 | Greek | 7 | Portuguese | 6.5 | Turkish | 8 |
| Danish | 6 | Hungarian | 7.5 | Romanian | 7 | Ukrainian | 7.5 |
| Dutch | 7 | Italian | 6 | Russian | 7.5 | | |

NOTE: The computation of foreign words for Chinese, Japanese, and Korean is the same as described above except that characters are counted instead of letters.

2. WORD COUNTING METHOD

In the word counting method, each foreign word and group of three or more numbers or symbols that are not reproduced for insertion into the translated copy are counted as a foreign word. Additionally, each English word in the foreign text crossed out by the COTR will not be translated or counted in the foreign word computation. Foreign language words other than those of the specified language will count as a word of the specific language.

ATTACHMENT 4 - STANDARD CODES AND FORMATS

1. STANDARD COUNTRY CODES
2. STANDARD KIND CODES
3. STANDARD TITLE PAGE FORMAT (PATENT DOCUMENT)
