Subject: Pro Se Request for Extension of Time to Seek Judicial Review Under 37 CFR 90.3(c):
Reexam Request Control No. 95/001,559

(1) I, Mo Husain, wish to appeal to the Court of Appeals for the Federal Circuit as 'pro se' for the subject Appeal No. 2014-009650. I respectfully request an extension of time to seek judicial review, that would extend my current deadline from July 23, 2015 (63 days after the Board of Appeals decision issued on May 21, 2015) to January 23, 2016, i.e., by 6 months. Previously, an attorney represented me in this case, but I no longer can afford an attorney, and therefore must proceed pro se.

(2) I, Mo Husain, am the sole assignee of the patent at issue in this appeal, U.S. Pat. No. RE41,859, "Infusion of Combustion Gases Into Ballast Water Preferably Under Less Than Atmospheric Pressure to Synergistically Kill Harmful Aquatic Nuisance Species by Simultaneous Hypercapnia, Hypoxia and Acidic pH Level," Reexam Request Control No. 95/001,559.

(3) I, Mo Husain, am 82 years old (DOB July 1, 1933) and am currently experiencing significant health issues. I have undergone two open heart surgeries with the last one performed recently.

(4) I submit that the loss of counsel in my case, combined with my health issues, constitutes "good cause" for an extension of time to seek judicial review. As a non attorney, I will require a substantial amount of time to prepare for an appeal to the Court of Appeals for the Federal Court, and hence I respectfully request an extension of 6 months (through January 23, 2016. and therefore request a 6-month extension to January 23, 2016.

Sincerely Yours,

M. Husain
